

EncorePOS™ Feature List

EncorePOS™ gets the most out of your LiquorPOS® : posAdvisors' custom browser-based Management Dashboard gives you a quick or in depth look at how your business is performing with reports and utilities that build on your existing LiquorPOS system.

The Dashboard: Today's Sales, Exception Log, Sales by Department, Items Sold, Annual Comparison and Inventory Position at a glance!

Remote Access: Utilizing state-of-the-art security techniques, see your Dashboard from anywhere in the world on any device with a browser and internet access!! All data remains in the store and is not stored remotely!!

Utilities: A series of Utilities customized for LiquorPOS!

- ✓ **Frequent Buyer Utility:** Archive, edit and manage your customer database. Track and log point activity.
- ✓ **Archive Item Utility:** Archive Items you are no longer selling but would prefer not to delete. Also use this Utility to identify items moving slowly in your inventory.
- ✓ **Inventory Count Utility:** Take Inventory from your cell phone, use any number of phones to get the job done! Import files individually or consolidate for one Variance Report. Count files are Archived for reference.
- ✓ **Create a PO on your Phone:** Turn any count file into a LiquorPOS Purchase Order in one quick step!
- ✓ **Promotion Utility:** Create, save and stage promotion lists quickly! Includes Days of the Week and Happy Hour Promotions.
- ✓ **Inventory Snapshot:** Create and save an Archive of your current inventory position for later reporting!
- ✓ **Item Edit Utility:** Edit a list of items either individually or as a group! Much faster than going to each item record!
- ✓ **Receiver Edit Utility:** Edit the date on any receiving session to correctly track purchases.

Reports: All EncorePOS reports can be customized, sorted and exported to Excel, the Clip Board, a .pdf or simply printed. Save your already formatted favorites for quick access!

- ✓ Inventory Performance Report
- ✓ LIFO/FIFO Inventory Valuation
- ✓ Discount Report
- ✓ Coupon Report
- ✓ Exception Report
