EncorePOS™ Feature List

EncorePOS™ gets the most out of your LiquorPOS® : posAdvisors' custom browser-based Management Dashboard gives you a quick or in depth look at how your business is performing with reports and utilities that build on your existing LiquorPOS system.

The DashBoard: Today's Sales, Exception Log, Sales by Department, Items Sold, Annual Comparison and Inventory Position at a glance!

Remote Access: Utilizing state-of-the-art security techniques, see your Dashboard from anywhere in the world on any device with a browser and internet access!! All data remains in the store and is not stored remotely!!

Utilities: A series of Utilities customized for LiquorPOS!

- ✓ **On Line Order Import:** Import Drizly & CityHive Online orders directly into LiquorPOS, a huge time saver!
- ✓ **Frequent Buyer Utility:** Archive, edit and manage your customer database. Track and log point activity.
- ✓ **Archive Item Utility:** Archive Items you are no longer selling but would prefer not to delete. Also use this Utility to identify items moving slowly in your inventory.
- ✓ **Inventory Count Utility:** Take Inventory from your cell phone, use any number of phones to get the job done! Import files individually or consolidate for one Variance Report. Counts Archived for reference.
- ✓ **Create a PO on your Phone:** Turn any count file into a LiquorPOS Purchase Order in one quick step!
- ✓ **Promotion Utility:** Create, save and stage promotion lists quickly! Includes Days of the Week and Happy Hour Promotions.
- ✓ **Inventory SnapShot:** Create and save an Archive of your current inventory position for later reporting!
- ✓ **Item Edit Utility:** Edit a list of items individually or as a group! Faster than going to each item record!
- ✓ **Receiver Edit Utility:** Edit the date on any receiving session to correctly track purchases.

Reports: All EncorePOS reports can be customized, sorted and exported to Excel, the Clip Board, a .pdf or simply printed. Save your already formatted favorites for quick access!
